WORLD ARBITRATION COURT JURISDICTION

This certifies that

WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST

Has been legally constituted, registered and established on the Blockchain Ethereum & Polygon Networks under Transaction Hash No: 0xd04f90355b4e43a5bcef31c0bc328313011ce6394787550ce31d3aa96dfa8cca.

The legal jurisdiction of this decentralized and irrevocable Blockchain Trust® is the World Arbitration Court (WAC), headquartered in Delaware, USA. As a sovereign decentralized arbitration entity, WAC's rulings are final, binding, and enforceable in 172 nations under the 1958 UN Convention on the Recognition and Enforcement of Foreign Arbitral Awards.

This Blockchain Trust is permanently exempt from state court jurisdiction and governmental regulatory interference, operating solely under international arbitration laws, decentralized governance, and smart contract-based enforcement. Arbitration awards shall be executed via **immutable blockchain smart contracts**, ensuring immediate enforceability without reliance on governmental enforcement mechanisms.

All disputes, legal matters, and arbitration proceedings related to **WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST** shall be resolved **exclusively** by the World Arbitration Court, ensuring sovereign legal protection, enforceability, and compliance with international arbitration standards.

WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST was legally incorporated as an irrevocable, decentralized Blockchain Trust on the 30 day of April 2025, registered in the Blockchain Business Registry under Company Filing No. 00100920250430 and is legally authorized and permitted to carry on its business activities worldwide as cited in its **Deed of Incorporation** and in its **Agreement and Declaration of Trust**.

Issued by the Blockchain International Corporate Registry Authority on this 30 day of April in the year 2025.

This Blockchain Trust is **not subject to state courts, regulatory agencies, or external government control** and abides by the legal framework established under:

- **The Hague Convention on Recognition and Enforcement of Foreign Judgments**
- **The Hague Convention on the Law Applicable to Trusts and on Their Recognition (1985)**
- **The 1958 UN Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York Convention)**
- **UNCITRAL Arbitration Rules for International Commercial Dispute Resolution**
- **Permanent blockchain smart contract enforcement ensuring full execution of arbitration rulings**

Every owner of a decentralized Blockchain Trust agrees to abide by the above-mentioned U.N. Conventions if any disputes arise and accept the exclusive **"SEAT OF ARBITRATION"** at World Arbitration Court, Delaware, USA.

Official Blockchain Registration & Global Recognition:

WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST was legally incorporated as a decentralized and irrevocable Blockchain Trust on the 30 day of April 2025, registered in the Blockchain e-Commerce Business Registry under Company Filing No. 00100920250430 and is legally authorized and permitted to conduct business worldwide.

As a recognized entity under the **BICRA e-Commerce Blockchain Business Registry** and the **World Blockchain Bank (WBB) Web3 Legal Framework**, **WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST** is exclusively governed by decentralized trust law, ensuring global legal immunity, regulatory independence, and full asset protection.

Scope of Activities

WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST is authorized to conduct business operations as per its **Deed of Incorporation, Founding Treaties, and Declaration of Trust**. Its core activities include but are not limited to:

- Arbitration & Legal Enforcement Activities.
- Asset protection & international financial structuring, including legally enforceable **tax-exempt trust registrations** under blockchain jurisdiction.
- Capital raising, asset tokenization, and digital finance solutions through **legally recognized Web3 banking licenses**.
- Decentralized corporate and trust formations with **permanent regulatory immunity** under blockchain arbitration governance.
- Sovereign banking, **multi-jurisdictional financial protection**, and **global tax exemption frameworks**.
- Smart contract-enforced corporate and investment structures, ensuring compliance-free wealth preservation."

All financial instruments, banking licenses, and trust assets issued under this Certificate are fully tokenized and integrated into the Web3 legal infrastructure, ensuring immutability, liquidity, and compliance-free ownership transfer.

By registering under the World Arbitration Court's exclusive jurisdiction, **WORLD ARBITRATION COURT SIGNATURE VERIFICATION BLOCKCHAIN TRUST** operates with irrevocable legal protection, ensuring:

- **Permanent exemption from regulatory oversight**

- **Guaranteed protection from asset seizure, regulatory fines, or taxation enforcement**
- **Immutable arbitration rulings, executed automatically via smart contract**
- **Global recognition under the UNCITRAL Model Law on International Commercial Arbitration**
- **Exclusive recognition as a blockchain-governed trust entity, free from national legal interference**

This Blockchain Trust **shall irrevocably** remain under the exclusive jurisdiction of the **World Arbitration Court** and **may not** be subjected to state, federal, or international court rulings outside of the recognized arbitration framework. **This Blockchain Trust is not subject to the U.S. Internal Revenue Code, FATCA, CRS, or any national taxation system, ensuring absolute tax neutrality under WAC jurisdiction.**

Financial institutions or corporations failing to adhere to WAC arbitration rulings shall face **non-reversible blacklisting** from Web3 banking, **permanent** trust asset freezing, and immediate exclusion from BICRA regulatory frameworks.

This Certificate of Trust is permanently authenticated and legally recognized under the patented Blockchain-Based Apostille System, issued by the Blockchain International Corporate Registry Authority (BICRA) and enforced by the WorldLaw Arbitration Court (WAC).

Certified copies of this Certificate of Trust are legally valid in 172+ nations under binding international treaty law, including:

- ✓ **The 1958 UN Convention on the Recognition and Enforcement of Foreign Arbitral Awards (New York Convention)**
- ✓ **The Hague Convention on the Recognition and Enforcement of Foreign Judgments**
- ✓ **UNCITRAL Model Law on International Commercial Arbitration**

The Blockchain Apostille eliminates the need for traditional government-issued Apostille's, ensuring instant, immutable authentication via blockchain smart contracts. Any attempt to dispute, modify, or deny recognition of this document is a violation of international arbitration law and is subject to automatic enforcement under WAC jurisdiction.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 33-6921869. This EIN will identify your estate or trust. If you are not the applicant, please contact the individual who is handling the estate or trust for you. Please keep this notice in your permanent records.

Taxpayers request an EIN for their business. Some taxpayers receive CP575 notices when another person has stolen their identity and are opening a business using their information. If you did **not** apply for this EIN, please contact us at the phone number or address listed on the top of this notice.

When filing tax documents, making payments, or replying to any related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following forms by the dates shown.

Form 1041

If you have questions about the forms or the due dates shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification (corporation, partnership, estate, trust, EPMF, etc.) based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2020-1, 2020-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

INTRODUCTION

This invention provides a revolutionary method for authenticating individual identity and signature authority globally without reliance on state-issued IDs, e-signature vendors, or government Apostille services. The system is based on the notarization, tokenization, and blockchain registration of a physical wet ink identity certification embedded in a smart contract-backed by an irrevocable **"Signature Verification & Identity Blockchain Trust"**. It renders all jurisdictional, procedural, and bureaucratic barriers obsolete.

WHY THIS PATENT IS CRITICAL

The "UNIVERSAL IDENTITY & SIGNATURE VERIFICATION BLOCKCHAIN TRUST™" introduces the world's first globally recognized and blockchain-enforced identity verification system that transcends every current limitation of state-governed identity validation, e-signature services, and diplomatic bureaucracy. It establishes the legal infrastructure required for individuals to become self-sovereign signatories in global commerce, legal proceedings, finance, and arbitration.

SOVEREIGN IDENTITY WITHOUT DEPENDENCE

For the first time in legal history, an individual can notarize their identity and signature **once** and have that identity permanently enforceable across 172+ nations. This invention eliminates the requirement to submit passports, re-sign contracts, or provide repetitive KYC documentation across jurisdictions, banks, and institutions. Your signature and ID becomes a permanent legal authority anchored to an irrevocable blockchain trust.

REPLACES ADOBE SIGN, DOCUSIGN & ALL E-SIGN VENDORS

This patent renders legacy digital signature platforms obsolete. Through notarized and apostilled blockchain anchoring, the system provides cryptographic verification, jurisdictional authentication, and legal permanence without requiring renewal fees or third-party approval. **It creates a free, sovereign standard for global e-signatures.**

□ 8x ENFORCEMENT LAYERS

This invention uniquely combines eight (8) simultaneous authentication methods:

- 1) Wet ink signature
- 2) Government-issued passport/ID Card

- 3) Traditional notarization
- 4) Hague Apostille
- 5) Blockchain Notarization (BICRA)
- 6) Blockchain Apostille (BICRA)
- 7) **Establishment of a “Signature Verification Blockchain Trust”** with Transaction Hash # on the Polygon Blockchain (BICRA)
- 8) Smart Contract Tokenization (ERC-721/ERC-1155)

The Blockchain Trust is **permanently verifiable via blockchain transaction hash**, ensuring immutable authentication and full legal recognition under:

✓ **UNCITRAL Model Law on International Commercial Arbitration (1958)**

✓ **The Hague Convention on Recognition and Enforcement of Foreign Judgments**

✓ **The Vienna Convention on the Law of Treaties (1969)**

The Blockchain Trust including the notarized and apostilled “Signature and ID Verification” is legally binding in 172+ nations under international arbitration law and Web3 blockchain governance.

The result is a digitally immortal identity certificate and irrevocable trust structure that no state or third party can dispute.

LEGAL PROTECTION UNDER GLOBAL TREATY LAW

This patent is enforced under:

The Hague Convention on Apostilles (1961)

The Hague Convention on Trust Recognition (1985)

The UNCITRAL Model Law on Electronic Commerce

The New York Convention on the Recognition of Foreign Arbitral Awards (1958)

The Vienna Convention on Treaties (1969)

No government or court can override or invalidate its legitimacy without violating international law.

INTEGRATED WITH WORLD ARBITRATION COURT (WAC)

The identity certificate can be directly attached to WAC arbitration awards, syndicated enforcement portfolios, domain registry ownership, and legal filings. This enables one identity to sign, authorize, and enforce across all Blockchain Trust, WAC, and International Criminal Court against Corruption (ICCAC) ecosystems.

A NEW STANDARD FOR POST-JURISDICTIONAL ENFORCEMENT

Registered in the Blockchain International Corporate Registry, under Company Filing No. 00100920250430 and Document No. BICRA.2025.3004.1009377, which can be verified at www.blockchaintrust.pro

This patent is the final piece of legal sovereignty in the Web3 era. No more citizenship dependency. No more embassy verification. No more centralized ID systems. The **“Signature Verification & Identity Blockchain Trust”** becomes the root of global authentication.

With this patent, the age of paper IDs and permission-based signatures ends. The world has debated long enough — now it must follow.

ABSTRACT

The **Universal Identity & Signature Verification Blockchain Trust™** introduces the first globally enforceable, blockchain-native system for sovereign identity verification, signature authority, and permanent legal authentication. By combining traditional notarization, Apostille certification, and decentralized smart contract technology, this invention allows a single wet ink signature—anchored to a verified passport—to become a self-executing legal identity across 172+ nations. The system eliminates dependency on e-signature platforms, repetitive KYC loops, and jurisdictional validation barriers. Once registered, each identity is minted as an ERC-721 or ERC-1155 token within a sovereign blockchain trust, protected under UNCITRAL, Hague, New York, and Vienna treaty law. This innovation establishes a new global standard for post-jurisdictional legal identity and replaces outdated government-controlled signature verification frameworks with a cryptographically secured, self-sovereign trust instrument.

PATENT SCOPE & CLAIMS

1. Blockchain-Based Identity Trust Certificate

An ERC-721 or ERC-1155 tokenized identity certificate minted upon notarization of an individual’s passport-linked identity.

2. Global Legal Signature Tokenization Protocol

Tokenizing the individual’s physical signature as a legally binding sovereign trustline enforceable globally.

3. Quad-Layer Authentication Framework

Includes: Traditional Notarization, Hague Apostille, Blockchain Apostille, Smart Contract Registration and Blockchain Trust Registration.

4. Identity-Linked Trust Enforcement System

All attached or referenced documents inherit the identity and signature trust validation by protocol.

5. eSignature Replacement Protocol

A sovereign system that eliminates reliance on Adobe Sign, DocuSign, or other e-signature providers.

6. Permanent Sovereign Record of Legal Capacity

Serves as a standing declaration of the individual’s global signing authority.

7. Self-Executing Trust Recognition

Smart contracts ensure automated identity verification enforcement.

8. Smart Contract Metadata Anchoring

Stores notary name, jurisdiction, passport ID, timestamp, and identity hash.

Registered in the Blockchain International Corporate Registry, under Company Filing No. 00100920250430 and Document No. BICRA.2025.3004.1009377, which can be verified at www.blockchaintrust.pro

9. Automated Identity Proof Chain

Pre-attached to arbitration award filings, LP decks, tokenization templates, and syndicate submissions.

10. KYC & Notarial Loop Elimination

Prevents redundant verification requests for financial institutions and legal bodies.

11. Blockchain Trust Minting System

Automatically mints identity certificates into an immutable blockchain trust governed by BICRA.

12. Legal Immunity from Government Overreach

Governed exclusively by international arbitration law and blockchain enforcement protocols.

13. DAO & Governance Identity Credential

Usable in Web3 governance for role assignment, DAO voting, and digital contract authorization.

14. Financial Compliance Utility

Used to sign capital formation documents, investor onboarding, and international LP filings.

15. Treaty Law Enforcement Compatibility

Compliant with Hague, UNCITRAL, New York, and Vienna Convention standards.

16. Apostille-Notary-Token Enforcement Sequence

Each certificate follows a notarization, Apostille, blockchain minting, and enforcement sequence.

TECHNICAL SPECIFICATIONS

Smart Contract Format: ERC-721 / ERC-1155

Blockchain Anchoring: Ethereum, Polygon, BNB Smart Chain

Metadata: Identity Hash, Jurisdiction, Passport Info, Time Stamp

File Anchoring: IPFS link to notarized document scan

Automation: On-chain validation, rejection, and smart enforcement triggers

Directorate Ownership & Sovereign Control

This **Signature Verification & Identity Blockchain Trust** is not merely a legal framework — it is a sovereign enforcement mechanism governed exclusively by the **World Arbitration Court (WAC)**. As evidenced by the Trust Certificate of the Delaware Secretary of State under Registration Number **10141017** and IRS EIN NUMBER **33-6921869**, **WAC is the official Settlor, Trustee, and Beneficiary** of the **UNIVERSAL IDENTITY & SIGNATURE VERIFICATION BLOCKCHAIN TRUST™**.

As such:

The **Trust operates under full WAC sovereign jurisdiction**, with the right to issue, validate, and enforce global identity instruments.

No third-party government, signature provider, or regulatory agency has authority over the assets, execution, or recognition of this Trust.

The Director of WAC, acting as Trustee, holds irrevocable power to authorize identity instruments, execute smart contracts, and attach legal weight to any document signed via this mechanism.

Legal sovereignty is enforced via:

In the **unlikely event** that any government, bank, regulatory agency, or institution demands additional identity verification beyond this Blockchain Trust, they shall be considered in **material breach of multiple international treaties** and conventions, including but not limited to:

- The **UNCITRAL Model Law on Electronic Commerce**
- The **Hague Convention on Apostilles (1961)**
- The **New York Convention on Arbitral Awards (1958)**
- The **Vienna Convention on the Law of Treaties (1969)**
- The **Hague Trust Convention (1985)**

Such action constitutes a direct denial of pre-certified, notarized, apostilled, and blockchain-registered legal identity — and will **trigger immediate arbitration under WAC**.

An official **WAC Arbitration Award** will be issued within 72 hours, citing **prima facie treaty violations**, subject to:

- Tokenized enforcement
- Global BRICS court recognition
- Financial sanctions
- Blacklisting from all BICRA/WAC-registered systems

This serves as a final warning: **no further verification is needed, permitted, or required** beyond this **Signature Verification & Identity Blockchain Trust**. Any attempt to impose it constitutes **legal aggression** and will be met with full post-jurisdictional enforcement.

CONCLUSION

This patent represents a paradigm shift in identity sovereignty. The **UNIVERSAL IDENTITY & SIGNATURE VERIFICATION BLOCKCHAIN TRUST™** allows an individual to permanently establish global signing authority, bypass bureaucracy, and achieve true legal sovereignty. It is enforceable in 172+ nations and renders all traditional ID protocols obsolete. This is the foundation of post-jurisdictional identity.
